- **Technology Responsible Use Guidelines & Form (TRUF):**

There's about 100 incomplete TRUFs - either the student didn't sign or parent didn't sign. There's others that have not turned in this form.

Note: The sheets that were inserted into your student's folders to replace the older Student Internet Forms have the **"RS 17-0051, July 2016"** printed at the **bottom right hand corner of each page**. This is the OFFICIAL form that must be turned in (to the office) to be able to use HIDEOE devices & services. Turn in only the 1 page form (not the 4 page guidelines). Be sure to have signatures of the student & at least one parent/guardian on the returned form. **Forms not returned will result in KKHS Google account suspensions.**

To Students: An email reminder was sent to accounts that still needs the TRUF turned in. Please check your KKHS Google email account if you received one. If you need a copy of the form you may pick one up at the Administration office during non-instructional times or go online to

Our **Cell phones** alone can harbor tens of thousands of germs at any given time! Before my students are able to get into the lab and start cooking, they must pass a food safety

and sanitation / Kitchen safety test with 100%, with that being said, All next week, my PHSP & Culinary students will be preaching the importance of hand washing.” Her students will be distributing a Dept. of Health approved hand washing guide to to all our classrooms.
