- **2017 Clean Tech Competition - Challenge your students to "Create a Greener Future" - Win up to \$10,000! REGISTRATION IS NOW OPEN!**

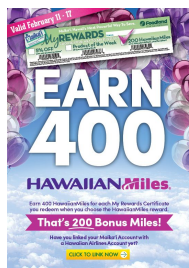

Registration continues for the 2017 Clean Tech Competition, a global research & design challenge for 15-18 year old students. This year's challenge is to "Create a Greener Future". 10 different countries have already registered teams & they want Hawaii students involved as well!

This educational opportunity challenges students to develop innovative, clean technology solutions to real-world issues. To "Create a Greener Future" solutions may take on aspects of buildings, materials, efficiency, indoor environmental quality or "sick buildings", among other available topics. Student participants will gain experience with focused research, critical thinking, & the scientific process – making it a great project based learning opportunity.

There is no entry fee, & students can participate through school, extracurricular programs or, on their own. Total prizes awarded will be over \$30,000 & the Finalist Event will be held on at Stony Brook University, New York on Friday, July 14.

There is no limit to the number of Teams per organization! Each stage of the competition is designed to be a rewarding process, & more student participation means inspiring more young scientists to help build a better future for our planet. Registration closes at 4pm EST, on Friday, March 24th and papers aren't due until Friday, April 14th.
